

What's your passion?

If you're looking for an industry that is going to be around for the long haul, we want you to consider the aggregate industry. With a variety of careers to match a wide array of passions, the aggregate industry is the perfect choice for those looking for a successful career while providing value to our economy.

Career opportunities

Operations

Operators move our industry forward. Each step of the process is executed with precision to create the products making up the backbone of our infrastructure.

We want you!

Choose to be a part of the **Illinois aggregate industry** and become the backbone of America's economy.

Career opportunities

Safety, Engineering, and Science

Safety, engineering, and the sciences ensure we're keeping our staff secure, things are functioning exactly how they should, and we're using and applying resources responsibly.

Quality Control

Ensuring that everything runs smoothly and the product meets engineering specifications not only guarantees customer satisfaction but also plays a large role in the safety, durability, and success of the final products. Quality control makes that happen.

Sales & Marketing

Sales Reps and Marketing Specialists are responsible for selling products to customers. Customer Service professionals and Dispatchers ensure product deliveries are on schedule and meet customers' expectations

Office Professionals

Our business is like any other business. Accounting, human resources, IT, and administrative personnel are pivotal to our success. Without these people, we grind to a halt.

Why the aggregate industry?

The aggregate industry is huge and has no signs of slowing down with the careers available nearly limitless. Aggregates are the unsung hero of our economy and our infrastructure. Homes, roads, sidewalks, and many tangible items are created using aggregate products.

Did you know?

of coarse and fine aggregate is used for each mile of a 2-lane concrete highway

of aggregate are required for an average-sized home

of aggregate are required annually for each Illinois citizen

of aggregates or more can be used in constructing a school or hospital
